

Information Bulletin from Lakeland College

Chief Peter Krich, president of the Alberta Fire Chiefs Association (AFCA), visited Lakeland College Emergency Training Centre (ETC) recently and met with Dean Chris Senaratne and staff as well as Michael Crowe, vice president, academic. There were great discussions and it was reemphasized by ETC personnel that, as the sole provider of modular training delivery to the Alberta municipal fire service, it is their intention to continue with the delivery of NFPA 1001 S and NFPA 1021 FOTP courses without any disruption. Lakeland will work diligently towards supporting the AFCA executive to ensure this modular training leads to certification to the NFPA 1001 and 1021 standards respectively. Lakeland appreciates that Chief Krich made the time to meet with college employees to discuss AFCA's training needs.
